

# DINNER WITH A SCIENTIST

## THE MICROBIOME AND HUMAN HEALTH

### YOUR INNER ECOSYSTEM

6:30PM WEDNESDAY 4TH OF JUNE 2014

ERA BISTRO

102 MELBOURNE STREET, SOUTH BRISBANE

Did you know that our bodies contain over 10 times more microbial cells than human cells?  
Yet the human microbiome is widely considered to be a newly discovered organ!

The Australian Society for Medical Research (ASMR)- a non-profit organisation representing health and medical researchers in Australia- is offering you the chance to learn about your inner ecosystem!

You are invited to have dinner with leading Queensland medical researchers, learn about their exciting research and get all your questions answered in a relaxed informal setting.

Register now for this unique and eye-opening opportunity!

**Book online at: <http://www.trybooking.com/83812>**

Cost: \$30 for a 2-course meal

#### Guest Scientists:

Prof. Graham Radford-Smith (Inflammatory Bowel Diseases)

Dr. Matthew Cooper (Antibiotic Resistance)

Dr. Lutz Krause (Bioinformatics)

Dr Marloes Dekker (Metabolism)
