**TRANSLATIONAL RESEARCH INSTITUTE
AUSTRALIA**

Welcome to the Translational Research Institute Australia

A haven of medical research since 2013, TRI is a hub of ground breaking translational discoveries. Minutes from the Brisbane CBD and housed in an award-winning building by Donovan Hill and Wilson Architects, these are our event spaces available to hire.

Please note as we are not a dedicated conference facility, so do not have event management staff on hand and some expected services may require additional setup. To ensure your event at TRI runs smoothly, we advise that you should source your own event management personnel. Security, car parking, cleaning and an on-site AV technician are available for an additional charge and on request.

Please refer to www.tri.edu.au for full terms and conditions of booking
