**DISCOVERY SCIENCE**

Pre-clinical and animal studies

**TRANSLATION TO HUMANS**

Proof of concept prototype studies and Phase 1 clinical trials

**TRANSLATION TO PATIENTS**

Phase 2 and 3 clinical trials, and clinical research studies to inform evidence-based guidelines

**TRANSLATION INTO PRACTICE**

Phase 4 clinical trials, health services and implementation research (including real-world studies)

**TRANSLATION TO COMMUNITY**

Population-level outcomes research and studies of the impact on policy
