

GENESEARCH

e ❄️ FREEZER

- Do you need a faster, more sensitive PCR assay?
- PCR Biosystems is a London-based PCR company offering a range of best-in-class kits and reagents for endpoint PCR, real-time PCR, cDNA synthesis and genomic DNA extraction.

- Buy 3 get 1 free! Promo starts September 13!

- Highest quality small molecules at low prices!
- Receptor Ligands, enzyme inhibitors, signalling tools and more...

- Fast GPCR screening with **IP-One**, **cAMP**, & **GDP** assays
- NEW **SARS-CoV-2 S1/ACE2 binding kit**
- Ask me how you can get **50% off** your first kit!

- NGS, gene synthesis, and oligo synthesis services!
- Request a quote at [genesearch.com.au/genomics](https://www.genesearch.com.au/genomics)

- Check out our tips, plates, and tubes!
- See the entire range at [genesearch.com.au/geneware](https://www.genesearch.com.au/geneware)

- Get reliable results **faster than ever** with sample preparation for proteins, peptides and proteomic analysis by MS

- Thomson filter vials - only 15 seconds to filtered samples in an autosampler-ready vial.
- Get the highest yields with flasks for bacterial & mammalian protein expression

Morning tea & trade display

Wednesday Sep 15

9:30- 11:30 am

Level 7
