

PROUDLY DISTRIBUTING

BioTools is Australian owned and provides innovative tools to Life Sciences, Medical Research, Pathology, Diagnostic and other industry partners. BioTools focuses on delivering productive workflow solutions for Liquid Handling, Biospecimen Sample Management and Inventory, PCR, Cell Biology, Instrumentation / Automation and Laboratory Equipment.

PCR and Next Generation Sequencing Consumables, Microplates, Microplate Sealing and Heat-Sealing Instruments.

Flexible Benchtop Automation, Automated Nucleic Acid Extraction, High Throughput Liquid Handling, Lab Automation

Scientific Laboratory Balances, Moisture Analysers, Viscometers

PCS® Pipette Calibration System, MVS® Multichannel Verification System

Cell Cryopreservation Systems, Sample Cooling, Freezing & Snap Freezing, Sample Transport, Accessories

Sample Management Automation, Tube Handlers, Volume Detection, Tube Labellers

Box Scientific - Laboratory Sample Thawing, Station One and Heliport Rack Thawing Stations

Automated Sample Storage: Ambient to - 20 °C, - 80 °C & LN2 - 190 °C Cryogenic Storage systems; Automation Instrumentation. 4titude, FluidX and BioCision owned by Azenia Life Sciences.

Laboratory Refrigerators (4C) and Freezers (-20C) with Chemical Storage and Spark-Proof options, Large Refrigerated Shaking Incubators, Test Chambers, Warmers

Porta Thermal Cold Chain Vaccine Bag Range

Automated Liquid Handling Systems, Lynx Liquid handling Platform

Rapid Freeze/Thaw Processes and Storage for Bioprocessing Applications. Ultra-low temperature cascade refrigeration engineering Consultative solutions and OEM products for pharmaceutical, life science, biotechnology and biorepository

Biospecimen Sample Storage Solutions, Next-Gen 2D Code Tubes, Single Tube & Whole Rack Readers, Decapper/Recapper

PROUDLY DISTRIBUTING

FreezerPro® Laboratory Information Management Software

Lab Equipment: Microcentrifuges, Gusto Centrifuge, Magnetic Stirrers, Vortex Mixers

Microplate Handling Instruments, Automated Liquid Handling, Colony Picking, Lab Automation Software, Laboratory Workcells

Electronic Pipetting: VIAFLO Electronic Pipettes, VOYAGER Adjustable Tip Spacing Pipettes, VIAFLO ASSIST & ASSIST PLUS, MINI 96, VIAFLO 96, VIAFLO 384, VIAFILL Bulk Reagent Dispenser. EVOLVE Manual Pipettes.
INTEGRA: Safety Bunsen Burner - FIREBOY, Surface Sterilisation - FLAMEBOY, Pipetting Controller - PIPETBOY, Peristaltic Pump - DOSE IT, Media Sterilisation - MEDICLAVE & MEDIAJET, Waste Aspiration and Removal - VACUSIP and VACUSAFE

Lab Inventory System: Drawer, Horizontal, Vertical Freezer Racking and LN2 Racking designed for custom freezer configuration

EVE Automated Cell Counter, EVE Cell Counting Slides for EVE and Countess Instruments, C-Chip Disposable Hemocytometer

Patented Bullet Blender Tissue Homogeniser, Automated Western Blot Processor - Freedom Rocker BlotBot 120 and 240

Laboratory Equipment; Dry Block Heaters, Hybridisation Ovens, Mixers & Shakers, Shaking Incubators, Refrigeration Units, Immersion Heater Circulation, Waterbaths (Heated, Shaking and Unheated), Warming Trays

Automated Tube Labelling, Tube Sorting and Handling, Liquid Dispensing, Uncapping & Recapping, Bulk Tube Handling, Barcode Scanning, Microplate Handling, BB Dropper

Digital Dry Block Heaters, Vortex Mixers, Tube Tumblers and Plate Spinners

Colony Picking, High Throughput Screening (Rotor HDA) Colony Counting and Tetrad Dissection

Laboratory Equipment: Incubators, Ovens, Slide Warmers, Waterbaths, Temperature & Humidity, Plant Growth

Ultrasonic Baths and Cleaners
