

Brighten Up Your Research - EOFY Offers

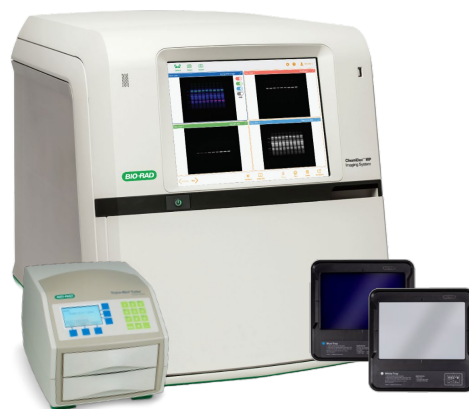

Western Blotting

Bio-Rad's fluorescent western blotting workflow is a seamless integration of products designed to work together to offer guaranteed results.

ChemiDoc™ MP Imaging System start-up fluorescence package:

Package Price:
\$49,990!

Cat#	Package Description	Qty
12003154	ChemiDoc MP	1
12003026	White Sample Tray	1
12003027	Blue Sample Tray	1
1704150	Trans-Blot Turbo	1
1704158	Mini 0.2 µm Nitrocellulose Transfer Packs	2
12004158	StarBright Blue 700 Goat Anti-Mouse IgG	1
12005869	StarBright Blue 520 Goat Anti-Rabbit IgG	1

Flow Cytometry Antibodies

New StarBright™ Dye conjugated antibodies compatible with all flow cytometry instruments and buffers

Buy 1, Get 1 Free on StarBright™ Dye Conjugated Antibodies

- Bright Dyes with tight excitation and emission
- Dyes with excitation from **UltraViolet**, **Violet**, **Blue**, **Yellow**, and **Red** lasers

FREE Antibodies

**Offer valid on selected StarBright flow cytometry antibodies only*

Pick up our PTC Tempo Thermal Cycler in ANY block configuration at special price

Cat#	Block configuration	Qty
12015382	96-well	1
12015392	Deepwell	1
12015309	48/48-well	1
12015394	384-well	1

Package Price:
\$13,990!

TC20™ Automated Cell Counter Package including 600 counts!

Cat#	Package Description	Qty
1450101	TC20 Automated Cell Counter	1
1450016	Cell Counting Slides, 600 counts	1

Package Price:
\$4,900!

Purchase 2 x Mini-PROTEAN® Cells and Get a FREE PowerPac™ Basic!

Cat#	Package Description	Qty
1658004	Mini-PROTEAN® Tetra Vertical Electrophoresis Cell	2
1645050	PowerPac Basic	1

Package Price:
\$1,890!

Stock up on Trans-Blot® Turbo™ Transfer Packs with special pricing on 40 Transfers (4 x packs)

Cat#	Description	Qty
1704156	Mini-PVDF Transfer Packs	4
	OR	
1704158	Mini-Nitrocellulose Transfer Packs	4

Package Price:
\$570!

BIO-RAD

Brighten Up Your Research - EOFY Offers

Purchase any 2 x Off-The-Shelf Bio-Plex® Kits* and receive a third kit, of equal or lesser value for FREE!

Bio-Plex Multiplex Immunoassays allow you to simultaneously quantify up to 500 proteins, peptides, and nucleic acid targets in a single 12.5 µl sample.

**Selected Off-The-Shelf Kits only and offer excludes all custom kits.*

FREE Bioplex Kit

Purchase 2 x selected Universal qPCR Supermixes* and receive a third, of equal or lesser value for FREE!

iTaq or SsoAdvanced Universal Real-Time PCR Supermixes work on any qPCR system, providing superior qPCR performance

**Cat# 1725125, 1725134, 1725135, 1725274, 1725275, 1725284, 1725285*

FREE Supermix

Purchase 5 x PrimePCR qPCR Assays* for a discount

PCR Primer and Probe Assays for qPCR experimentally validated to ensure optimal assay performance

**Cat# 10025636, 10042976, 12001950, 10031225, 10031228*

25% Discount

10% OFF Hard-Shell® PCR Plates^ & Seals

Cat#	Description
HSP9601	96-Well, low profile, thin wall, skirted, white/clear
HSP3805	384-Well, thin wall, skirted, clear/white
MSB1001	Microseal 'B' PCR Plate Sealing Film

SAVE 10%

^Plates here recommended with CFX OPUS, but other plastics available for use on competitor thermal cyclers. Contact us for compatibility details

Brighten Up Your Research - EOFY Offers

qPCR Systems

Bio-Rad's CFX Opus RT-PCR Systems provide powerful multiplexing with thermal uniformity and modernized data management options.

Receive FREE software and 10% discount with purchase of CFX Opus Real-Time PCR System

- Uniform thermal performance, including thermal gradient
- Cloud connectivity
- Network storage drive access for excellent data management
- Shuttle optical system

**Includes CFX Opus 96 (Cat# 12011319) and CFX Opus 384 (Cat# 12011452)*

10% OFF
+ FREE software

ddPCR™ Systems

Enhance your research by Trading-Up your current qPCR or dPCR system to the latest QX600™ Droplet Digital™ PCR System

- Six-color detection capability
- Absolute quantification
- 0.1% or better sensitivity
- Accurate and reproducible results
- Powerful user-friendly software
